

TEXAS HOLD'EM POKER

(MBS)

Game Rules

Version 2

w.e.f 25 June 2026

In accordance with Section 100(1) of the Casino Control Act 2006, the Gambling Regulatory Authority of Singapore approves the game rules in respect of the game “Texas Hold’em Poker (Version 2)” as set out in this document by Marina Bay Sands Pte. Ltd. (“MBS”), to be conducted in the casino operated by MBS.

- 1. Definitions**
- 2. Mode Of Play**
- 3. How To Play**
- 4. Settlement**
- 5. Irregularities**
- 6. General Provisions**
- 7. Appendix**

1. Definitions

1.1. In these rules:

- 1.1.1. "All-in" refers to a Player investing all remaining chips of his Table Stake in the outcome of a Hand. A Player will be bound to "All-in" if he indicates his intention through physical acts or verbally declaring his intention to do so.
- 1.1.2. "Ante" refers to a mandatory wager placed by all Players before the commencement of a round of play, in addition to the Small Blind and Big Blind. If applicable, the amount of the Ante shall be predetermined and clearly displayed at the table. The Ante contributes to the pot and is considered a live bet. It will be made clear to any Player joining a game if it is an "Ante" game.
- 1.1.3. "Bet" means to place the required wager and includes a call and/or a raise (if permitted) to remain in the round of play or going "All-in" if the Player's remaining chips are less than the amount of the required wager.
- 1.1.4. "Betting Round" means any of the following periods of play, during which each active Player, in order, has the option to check, bet, call, raise, or fold until all wagers have been matched.
 - 1.1.4.1. The 1st Betting Round occurs after the Small Blind and the Big Blind have been placed before the Flop Cards have been dealt.
 - 1.1.4.2. The 2nd Betting Round occurs after the Flop Cards have been dealt face down and flipped face up but before the Turn Card has been dealt.
 - 1.1.4.3. The 3rd Betting Round occurs after the Turn Card has been dealt face down and flipped face up but before the River Card has been dealt.
 - 1.1.4.4. The 4th and final Betting Round occurs after the River Card has been dealt face down and flipped face up but before any Player exposes his Hole Cards.
 - 1.1.4.5. A Betting Round may also end when all but one Player have folded their hands.
- 1.1.5. "Blind" means a predetermined mandatory bet placed by Players before the first card is dealt. A Blind is a live wager, which can win the pot if no further contributions to the pot are made. There shall be two blinds for each round, the Small Blind and the Big Blind.
- 1.1.6. The Small Blind means the smaller of the two Blinds in each round of play, which shall be made by the Player on the immediate left of the Dealer Button position and which shall be of a fixed amount as stipulated by the House at each table.
- 1.1.7. The Big Blind refers to the larger of the two Blinds in each round of play, which shall be placed by the second Player to the left of the Dealer Button position and is equivalent to twice the amount of the Small Blind.
- 1.1.8. "Burn a card" means to discard face down the first card of the remaining deck prior to dealing the Flop Cards, the Turn Card and the River Card.
- 1.1.9. "Call" means to make a bet matching the immediately preceding bet or raise.

- 1.1.10. "Check" means not initiating a bet but retaining all rights to act in the event a bet is made. A "Check" shall only be an option if there is no bet or raise to call. A Player may indicate a "Check" by knocking the table, tapping the table or announcing "Check".
- 1.1.11. "Community Cards" means cards dealt to the centre of the table, which may be used by any of the Players to complete his best possible five card hand.
- 1.1.12. "Dealer Button" is a marker used to indicate the last Player to receive cards. It then moves clockwise to the next Player at the conclusion of each game.
- 1.1.13. "Five Card Hand" means a hand consisting of five cards using any combination of the Players Hole Cards and the Community Cards.
- 1.1.14. "Flop Cards" mean the first three Community Cards dealt face down and subsequently flipped over by the Dealer.
- 1.1.15. "Fold" means the Player takes no further part in the current round of play. The cards of folded Players, which are placed face down on the table and pushed towards the Dealer, shall be collected by the Dealer. In the absence of a verbal declaration to "fold", the hand is considered 'live' until the cards have been taken in by the Dealer.
- 1.1.16. "Hand" means the cards held by a Player which are ultimately used to determine the result of a round of play.
- 1.1.17. "Hole Cards" mean the first two cards dealt face down to each Player.
- 1.1.18. "House" refers to the Casino Operator.
- 1.1.19. "Initial Deal" means the dealing of the "Hole Cards" face down to each Player.
- 1.1.20. "In turn" means that a Player has acted at the appropriate time, as opposed to acting prior to his turn. Acting prior to the appropriate time will be termed acting "out of turn".
- 1.1.21. "Pot" means the total sum of Blinds and bets wagered.
- 1.1.22. "Raise" means to bet a greater amount than a previous wager made during a Betting Round.
- 1.1.23. "Rake" or "Commission" means the act of taking a percentage of the pot or the amount due to the House for hosting the game. A "Rake", when imposed, will replace the "Time Charge".
- 1.1.24. "Reconstruct" means to arrange the cards into the correct order in the event of an error.
- 1.1.25. "River Card" means the fifth and final Community Card dealt face down and subsequently flipped over by the Dealer.
- 1.1.26. "Round of Play" means the time beginning when the Dealer calls for Blind Wagers, until the winning Player is determined.

1.1.27. "Run the Board" means a method of play described in Rules 3.25 to 3.25.5 in which, where no further Betting action can occur (i.e., one or more Players are "All In"), Players may, by mutual agreement, elect to have the remaining Community Cards dealt two or three separate times. Each set of Community Cards determines the outcome of a proportionate share of the Pot at Showdown. The Pot shall be divided as follows:

- If dealt twice: One half of the Pot is awarded based on each set of Community Cards; or
- If dealt three times: One third of the Pot is awarded based on each set of Community Cards.

For the avoidance of doubt, each set of Community Cards uses the same Hole Cards held by the Players and does not re-trigger any Betting Round.

1.1.28. "Showdown" means that all wagering for a round of play is completed, and a determination of the winner will be made by a comparison of hand values.

1.1.29. Substantial action means (a) two actions in turn where Players make a wager or (b) three passive actions where Players check or fold.

1.1.30. "Straddle Bet" means an optional blind wager placed before the Initial Deal by a Player in a position permitted under Rules 1.1.31.2 to 1.1.31.5. A "Straddle Bet" is a live wager that forms part of the Pot. The specific types, permitted positions and required amounts of "Straddle Bets" are set out in Rules 1.1.31.2 to 1.1.31.5, and Rules 1.1.31.6 to 1.1.31.8 set out the operational consequences of placing a "Straddle Bet" incorrectly.

1.1.30.1. Where one or more "Straddle Bet" are placed, the Player who places the last "Straddle Bet" shall act last in the first "Betting Round" unless there is a Raise.

1.1.30.2. "Regular Straddle" means an optional wager equal to two times the Big Blind, which may be placed only by the Player in the position immediately to the left of the Big Blind. The Regular Straddle must be placed in the exact prescribed amount; a Straddle Bet lower than or higher than the prescribed amount shall not be permitted. When a "Regular Straddle" is placed, a "Mississippi Straddle" shall not be permitted.

1.1.30.3. "Re-Straddle" means an optional wager equal to two times the immediately preceding Straddle Bet, which may be placed only by the Player in the position immediately to the left of the preceding Straddle. The Re-Straddle sequence may continue in clockwise order, with each subsequent Re-Straddle being equal to two times the immediately preceding Straddle amount, up to and including the Player in the Dealer Button position.

Each Re-Straddle must be placed in the exact prescribed amount; a Straddle Bet lower than or higher than the prescribed amount shall not be permitted.

Each Re-Straddle is optional. If any eligible Player declines to place a Re-Straddle, the Straddle sequence terminates at the last valid Straddle placed, and no subsequent Player may place a Straddle Bet in that Round of Play.

For the avoidance of doubt:

- (i) The Player in the Small Blind position and the Player in the Big Blind position are not eligible to place a Straddle Bet or Re-Straddle;
- (ii) The Straddle sequence commences with the Regular Straddle (Rule 1.1.31.2); and
- (iii) Re-Straddle is not permitted in conjunction with a "Mississippi Straddle".

1.1.30.4. "Mississippi Straddle" means an optional wager placed before the Initial Deal by the Player seated at the Dealer Button position. The amount of the "Mississippi Straddle" shall be equal to two times the Big Blind. A Mississippi Straddle bet lower than or higher than the prescribed amount shall not be permitted. The first active Player to the immediate left of the "Mississippi Straddle" shall be the first to act in the first Betting Round.

1.1.30.5. The Player who places the "Mississippi Straddle" shall act last in the first Betting Round and, if no other Player has raised, shall have the option to check or raise.

1.1.30.6. If both a "Regular Straddle" and "Mississippi Straddle" are placed on the same hand, the "Regular Straddle" shall prevail and the "Mississippi Straddle" shall not be permitted and shall be returned to the Player.

1.1.30.7. The House may, at its discretion, offer games where Straddle Bets are permitted in accordance with Rules 1.1.30.2 to 1.1.30.6 ("Straddle-Enabled Games"), and games where Straddle Bets are not permitted ("Non-Straddle Games"). The applicable game type shall be clearly displayed at the table and/or communicated by the Dealer or Supervisor prior to the commencement of play. In a Non-Straddle Game, any attempted Straddle Bet shall not be permitted and shall be returned to the Player.

1.1.31. "String Bet" means the action of placing chips into the Pot in multiple movements without a verbal declaration.

1.1.32. "Table Stake" means the amount of chips a Player has on the table and in plain view before the start of any round of play. An active Player may only wager up to the amount of chips he has on the table and may not augment his table stake whilst a round of play is in progress.

1.1.33. "Turn Card" means the fourth Community Card dealt face down and subsequently flipped over by the Dealer.

1.1.34. "Time Charge" is collected in a game that is conducted with the House collecting an amount of money from the Players at a pre-determined time interval. A "Time Charge", when imposed, will replace the "Rake".

1.1.35. "Under Call" means a Player places a wager that is less than the amount required to call a preceding bet or raise.

2. Mode of Play

- 2.1. The game of Texas Hold'em Poker shall be played with one deck of 52 cards without jokers and with backs of the same colour and design.
- 2.2. The layout for this game is as shown in Appendix "A" and "B".

3. How to Play

- 3.1. The Betting structure may be either "No Limit" or "Pot Limit".
 - 3.1.1. "No Limit" means that, subject to these rules, a Player may bet or raise any amount up to the total amount of their "Table Stake".
 - 3.1.2. "Pot Limit" means that, subject to these rules, the maximum bet or raise is limited to the value of the pot.
- 3.2. The minimum raise shall be at least equal to the amount of the last full bet or full raise in the current Betting Round. A wager that is more than the amount required to call but less than a full minimum raise (e.g. when the Player is "All in") shall not reduce the minimum raise amount for subsequent Players.
 - 3.2.1. A raise that is less than the minimum raise amount because a Player is "All In" shall be accepted but shall not constitute a full raise for the purpose of reopening the betting and shall not set or reduce the minimum raise amount for subsequent Players.
 - 3.2.2. There is no cap on the number of raises in each betting round.
- 3.3. A Player who wishes to participate in the game must place the minimum Table Stake on the table, in full view of the Dealer and all other Players. The minimum and maximum amount of Table Stake that each Player can bring to the table shall be clearly displayed on a signage at the Table.
 - 3.3.1. An active Player must not reduce his table stake at any time while participating in a game.
 - 3.3.2. A Player's "Table stake" must remain visible to the Dealer and all other Players.
 - 3.3.3. A Player is permitted to increase his table stake during the course of a game; however, the increase is only permitted to take place after the conclusion of a round of play, and prior to the subsequent round of play commencing. The increase can only be up to the maximum table stake.
- 3.4. The order of hands from the highest to the lowest is as follows:

Royal Flush	Is a hand containing an Ace, King, Queen, Jack and 10 of the same suit. E.g. A♠, K♠, Q♠, J♠, 10♠
Straight Flush	Is a hand containing five cards of the same suit in consecutive ranking other than a Royal Flush. E.g. J♣, 10♣, 9♣, 8♣, 7♣
Four of a kind	Is a hand containing four cards of the same rank. E.g. A♣, A♥, A♦, A♠, J♥
Full House	Is a hand containing three cards of the same rank and "one pair" E.g. K♣, K♥, K♦, A♠, A♥
Flush	Is a hand containing five cards of the same suit but not in consecutive ranking. E.g. J♥, 8♥, 6♥, 5♥, 2♥
Straight	Is a hand containing five cards of consecutive rank regardless of suit. E.g. 9♣, 8♦, 7♠, 6♥, 5♠
Three of a kind	Is a hand containing three cards of the same rank. E.g. 10♠, 10♥, 10♣, 6♥, 3♦
Two pairs	Is a hand containing two "pairs" E.g. Q♣, Q♥, 6♠, 6♥, 3♦
One pair	Is a hand containing two cards of the same rank. E.g. A♣, A♥, 8♦, 6♥, 5♠
Five Odd Cards	Five cards of different rank that are at least two suits that are not consecutive. E.g. Q♥, 10♠, 8♦, 6♥, 5♠, 2♥

3.5. The rankings of cards from highest to lowest is as follows: A, K, Q, J, 10, 9, 8, 7, 6, 5, 4, 3, 2.

3.5.1. An Ace ranks as the highest card, except in the event of a straight consisting of 5, 4, 3, 2, A, in which case the Ace ranks as the lowest card. e.g., 6, 5, 4, 3, 2 beats 5, 4, 3, 2, A.

3.5.2. All suits have the same rank.

3.6. The rankings for hands of the equivalent poker hand value but consisting of different card values are illustrated by the following examples:

3.6.1. K, Q, J, 10, 9 (Straight) beats J, 10, 9, 8, 7 (Straight).

3.6.2. 5, 5, K, 10, 2 beats 5, 5, Q, J, 10 as the next highest card after Pair of 5 is a King, which ranks higher than a Queen; and

3.6.3. A, K, J, 5, 2 beats A, K, 10, 6, 4 as the next highest card after the Ace and the King is a Jack, which ranks higher than a 10.

3.7. Commencement of play shall begin when the Dealer Button is placed in front of the Player in the Dealer Button Position and the Dealer announces, "Place your Blind bets please".

3.8. Verbal declarations of, "Call, Bet, Raise, Fold, Pass or All In" are binding.

3.8.1. If a Player places a chip with a value in excess of the amount required to call without making a prior verbal declaration of "Raise", or "Bet", it will be considered a "call" and the excess amount shall be returned to the Player.

3.9. A raise shall only be recognised when a clear verbal declaration of "raise" is made or where multiple chips are placed in a single continuous motion indicating an unmistakable intent to raise.

- 3.9.1. An "Under Call" will be deemed a call, and the Player shall be required to complete the wager to the full amount required, unless the Supervisor determines that the "Under Call" was the result of a Dealer error and the Player does not wish to call the full amount. In this case the "Under call" amount will be returned to the Player.
- 3.10. All bets and raises must be made in a single continuous motion. A Player who places chips in multiple movements without a clear verbal declaration of "Raise" (a "String Bet") shall be deemed to have made a Call only.
- 3.11. The objective of the game is to obtain the highest-ranking five card hand, consisting of any combination from the five Community Cards and the Player's two Hole Cards, at the end of the final Betting Round.
- 3.12. The Player to the immediate left of the Dealer Button position shall place the Small Blind and the second Player to the left of the Dealer Button position shall place the Big Blind. In the event where there are only two Players, the Player with the Dealer Button shall place the Small Blind, the other Player shall place the Big Blind.
- 3.13. Commencing with the Player on the immediate left of the Dealer Button position and in a clockwise direction, the Dealer shall deal one card at a time face down to each Player until each Player receives two cards.
- 3.14. The Player to the immediate left of the Player in the Big Blind position shall be the first to act and may call, raise, or fold. Betting continues around the table in a clockwise direction until each Player has had an opportunity to call, raise or fold. The Player in the Big Blind position has the option to check or raise, if no other Player has raised.
- 3.14.1. If there are only two Players, the Player without the Dealer Button shall be the first to act and may check, call, bet, raise, or fold.
- 3.15. The 2nd round begins with the Dealer burning a card prior to dealing the Flop Cards face up. The Player to the immediate left of the Dealer Button will be the first to act and may bet, check or fold. Each Player shall act on their hand in a clockwise direction electing to either check, bet/call, raise or fold.
- 3.16. After the 2nd Betting Round ends, the Dealer shall begin the 3rd Betting Round by burning a card and dealing the Turn Card face up.
- 3.17. After the 3rd Betting Round ends, the Dealer shall begin the 4th and final Betting Round by burning a card and dealing the River Card face up.
- 3.18. If only one Player remains at the completion of any Betting Round, he is not obligated to show his hand and shall win the pot.
- 3.19. If two or more Players are remaining at the "Showdown", the Players must expose both of their Hole Cards to claim any portion of the pot. A Player may concede any claim to the pot by folding in which case his cards do not need to be exposed unless requested by one of the remaining Players. The Dealer or Supervisor reserves the right to view any hand if it is deemed necessary to protect the integrity of the game.
- 3.19.1. If two or more Players remain at the "Showdown", the first Player to expose their Hole Cards shall be the Player who made the final Bet or Raise during any Betting Round of

that hand, and the remaining Players shall expose their Hole Cards in clockwise order thereafter.

- 3.19.2. If there has been no bet or raise during the round of play, Players will expose their Hole Cards starting with the first active Player to the immediate left of the Dealer Button Position and in clockwise order thereafter.
- 3.20. If a Player does not have a table stake of sufficient value to meet a wager but wishes to stay in the round of play, the Player must wager their entire remaining table stake (go "all in"). All current or future wagers not matched by the Player's "all in" bet will form a separate pot available only to those Players who have contributed to the separate pot. An "all in" Player remains in the hand as an active Player but will take no further part in subsequent Betting Round(s) and must expose their cards at the conclusion of the hand.
- 3.21. When a Player goes "all in" for less than the amount required to bet/raise, all subsequent Players must call any previous amount required to bet in the Betting Round, or call and raise (and if necessary, start a separate pot).
 - 3.21.1. All current or future wagers that exceed the amount of the Player's "All In" bet (i.e., the portion of such wagers that cannot be matched by the "All In" Player's chips) shall form a separate pot (or pots) available only to those Players who have contributed to such separate pot(s).
 - 3.21.2. An "all in" Player remains in the hand as an active Player but will take no further part in subsequent Betting Round(s).
- 3.22. When a Player goes "all in" with a wager which is in excess of the amount to call but is less than 50% of the amount required to constitute a raise, this excess amount shall be accepted as a bet but shall not be considered a raise. All subsequent Players shall call the "all-in" amount or call and raise.
 - 3.22.1. Any portion of a bet or raise that exceeds the amount the "All In" Player is able to cover (i.e., the portion that cannot be matched by the "All In" Player's chips) shall form one or more separate side pot(s), which shall be contested only by the Player(s) who have contributed to such side pot(s).
 - 3.22.2. The effect of any "All In" wager on whether betting is reopened shall be determined in accordance with Clause 3.2.1.
 - 3.22.3. When a Player, without a clear proper verbal declaration of "Raise", places a wager that is more than the amount required to call but less than the minimum raise amount, the following shall apply:
 - 3.22.4. If the excess amount over the call is less than fifty per cent (50%) of the additional amount required to make a raise, the wager shall be deemed a call only, the excess chips shall be returned to the Player.
- 3.23. A Player who has gone "all in" is only eligible to win the pot or pots he has contributed to.
- 3.24. The winning hand shall be the highest-ranking five-card hand consisting of any combination of the five Community Cards and the Players two Hole Cards.

- 3.25. If during the course of a round of play there can be no further action due to one or more Players going "all in", the Players remaining in the round of play may agree to "run the board" up to three times.
- 3.25.1. Agreement must be stated by all Players prior to any further cards being dealt.
- 3.25.2. When "Running the Board", the pot (and, where applicable, each side pot) shall be split as follows:
- 3.25.3. When running the board twice, a Player will win one half of the Pot (or Pots) for each set of Community Cards that produces a winning hand in their favour.
- 3.25.4. When running the board three times, a Player will win one third of the Pot (or Pots) for each set of Community Cards that produces a winning hand in their favour.
- 3.25.5. Where one or more side pots have been created, agreement to "Run the Board" multiple times must be obtained from all Players eligible to win the relevant pot; if agreement is not obtained in respect of any side pot, that side pot shall be awarded based on the original set of Community Cards only. The remaining Community Cards may still be dealt multiple times for any pot for which unanimous agreement is obtained.
- 3.26. The House may, at its discretion, offer games in which an Ante is required to be placed ("Ante Games"). Whether a game is an Ante Game, the format of the Ante (Traditional Ante or Big Blind Ante) and the amount of the Ante, shall be clearly displayed at the table and/or communicated by the Dealer or Supervisor prior to the commencement of play.
- 3.26.1. In a Traditional Ante Game, each Player shall place the Ante before the commencement of each Round of Play, in addition to the Small Blind and Big Blind. The Ante shall be collected by the Dealer and placed into the Pot prior to the Initial Deal.
- 3.26.2. The Ante is a live wager and forms part of the Pot for the purpose of determining the winning hand. For the avoidance of doubt, the Ante does not count towards any Player's Call, Bet or Raise obligation in the first Betting Round.
- 3.26.3. Where a Player fails or refuses to place the required Ante:
- 3.26.3.1. The Player shall not be dealt into that Round of Play; and
- 3.26.3.2. Upon the Player's return to active play, the Player shall be required to post all mandatory wagers (including any Ante, Small Blind and Big Blind) that were missed during the Player's absence before being dealt back into the game, save that the Player may, in lieu of posting the missed mandatory wagers, elect to wait until the Big Blind position returns to them in the natural rotation.
- 3.26.4. Where a Straddle Bet is placed in an Ante Game, the Ante shall be placed and collected before any Straddle Bet is posted.
- 3.26.5. Big Blind Ante Variant. The House may, at its discretion, offer Ante Games in which only the Player in the Big Blind position is required to post the Ante on behalf of the entire table ("Big Blind Ante"). Where the Big Blind Ante format applies:

- 3.26.5.1. The Player in the Big Blind position shall, before the commencement of each Round of Play, post both the Big Blind and the Big Blind Ante, each in the amount displayed at the table;
- 3.26.5.2. No other Player shall be required to post an Ante for that Round of Play;
- 3.26.5.3. The Big Blind Ante shall be collected by the Dealer and placed into the Pot prior to the Initial Deal, and shall constitute a live wager forming part of the Pot in accordance with Rule 3.26.2;
- 3.26.5.4. For the avoidance of doubt, the Big Blind Ante does not count towards the Player's Call, Bet or Raise obligation in the first Betting Round, and is separate from and in addition to the Big Blind;
- 3.26.5.5. Where the Player in the Big Blind position has insufficient chips to post both the Big Blind and the Big Blind Ante in full, the Player's remaining chips shall be applied first to the Big Blind Ante and then to the Big Blind, and the Player shall be treated as All In in accordance with Rule 3.20; and
- 3.26.5.6. Rules 3.26.3 and 3.26.4 shall apply to the Big Blind Ante with the necessary modifications, including that a Player who fails or refuses to post the Big Blind Ante when required shall not be dealt in, and shall be required to post all missed mandatory wagers upon their return to active play (in accordance with Rule 3.26.3.2).

4. Settlement

- 4.1. A Rake shall be collected from the pot and any side pots respectively, and such amounts shall be calculated and collected by the Dealer. Rakes shall first be collected from the main pot and then from the first side pot, and then any subsequently formed pots in order.
- 4.2. The percentage of the Rake information regarding the rake cap, and the rounding up or down of Rake amounts will be displayed at each table and different tables may operate under different rake conditions.
- 4.3. Each Round of Play shall be played to the conclusion and the Pot or Pots shall not be divided by agreement between two or more Players. For the avoidance of doubt, the "Run the Board" method of play under Rules 3.25 to 3.25.5 does not constitute a division of the Pot by agreement, as the outcome of each 'Run' is determined by hand strength at Showdown in accordance with these Rules.
- 4.4. When calculating the Rake, an uncalled wager will not form part of the pot. An "uncalled wager" is a wager made by a Player which is not called by any other Player, i.e an unmatched amount of money.
- 4.5. When two or more Players hold winning hands of equal ranking, the pot or pots shall be divided equally to the lowest chip denomination at the table. In the event there is an extra chip after the split, the extra chip shall be given to the first active Player to the immediate left of the Dealer Button position.

- 4.6. At the discretion of the Casino Operator a time charge may be imposed on each Player active in a game. This will be displayed on a sign at the table.
- 4.7. At the discretion of the Casino Operator, a time charge may be imposed on any table. This will be displayed on a sign at the table.

5. Irregularities

- 5.1. If in the course of a round of play, it is discovered that there are extra or missing card/s and/or card/s which do not belong to the deck/s of cards in use or if unshuffled cards are used, or if there are insufficient cards in the card shoe to complete the round of play:
 - 5.1.1. The current round of play shall be void; and
 - 5.1.2. All outcomes of the previous rounds of play shall stand.
- 5.2. A round of play shall be void if two or more cards are found face up in the card shoe during the course of the Initial Deal. If one card is found face up in the card shoe during the course of the Initial Deal, the first burn card before the flop will replace it and the round of play will continue. The exposed card will be announced to the table and used as the first burn card before the flop.
- 5.3. A round of play shall be void if any of the following occur prior to any wagers (not including Blinds).
 - 5.3.1. Failure to cut the deck.
 - 5.3.2. If the Dealer exposes two or more cards during the Initial Deal.
 - 5.3.2.1. If the Dealer exposes a card during the Initial Deal, the first burn card before the flop will replace it.
 - 5.3.3. A card or cards leaving the table due to Dealer error.
 - 5.3.4. Starting the deal from the wrong position.
 - 5.3.5. A Player is dealt the wrong number of cards.
- 5.4. Prior to or after any wagers a Players hand will be void if the Dealer fails to deal to an active Player, deals an incorrect number of cards to a Player or deals an extra hand and it is noticed:
 - 5.4.1. Before the Player has looked at his Hole Cards and the cards cannot be reconstructed;
or
 - 5.4.2. After a Player has looked at his Hole Cards.
- 5.5. The Flop Cards are dealt in one action:
 - 5.5.1. Should four cards be dealt in error and reconstruction is not possible, these will be reshuffled. The top three cards will be used to form the flop with the final card returning to the top of the deck to become the burn card prior to the dealing of the Turn Card. If reconstruction is possible, the correct three cards required to form the flop will be used and the fourth card will be used as the burn card prior to the dealing of the turn.

- 5.5.2. If the flop is dealt without a burn card, and reconstruction is not possible, the three cards will be reshuffled. The top card will become the burn card, with the remaining two cards being joined by the card at the top of the deck to form the flop. If reconstruction is possible, the card identified as the correct burn card will be burned with the remaining two cards being joined by the card at the top of the deck to form the flop.
- 5.5.3. If more than one turn card is dealt before the 3rd betting round and reconstruction is not possible, the Turn Card will be taken back along with the burn card and reshuffled. The Dealer will then resume the round of play by burning and then dealing the Turn Card faceup. If reconstruction is possible, the card identified as the correct Turn Card will be turned face up and the remaining card will be burned.
- 5.5.4. If more than one River Card is dealt before the 4th betting round and reconstruction is not possible, the River Card will be taken back along with the burn card and reshuffled. The Dealer will then resume the round of play by burning and then dealing the River Card faceup. If reconstruction is possible, the card identified as the correct River Card will be turned face up and the remaining card will be burned.
- 5.5.5. If the Turn Card or River Card are exposed before the completion of the respective betting round, it will be taken back and reshuffled.
- 5.6. A Player exposing their card or cards prior to the conclusion of the round of play may not raise for the remainder of the round of play. They can only check, fold or call.
 - 5.6.1. If a Player exposes any card from their hand to another Player or to any person not involved in the hand during a Round of Play, the exposed card or cards must be exposed to all Players, so as to ensure that all active Players have access to the same information for the remainder of the Round of Play.
 - 5.6.2. Upon the exposure of any card or cards under Rule 5.6.1, the Dealer or Supervisor may, for the purpose of protecting the integrity of the game (including guarding against collusion, 'soft play', or deliberate exposure to influence the Betting decisions of other Players), require the Player to expose all remaining cards in their hand.
 - 5.6.3. A hand exposed under this Rule shall remain live, unless the Supervisor determines that the exposure was intentional and materially detrimental to the integrity of the game. In such cases, or where repeated or deliberate violations occur, the following corrective actions may be taken at the Supervisor's discretion:
 - 5.6.3.1. The Player may be barred from future participation in the current session;
 - 5.6.3.2. The Player's wagers for the current round of play may be forfeited;
 - 5.6.3.3. The Player may be restricted from play for a specified period.
 - 5.6.4. This Rule does not apply to cards exposed during a Showdown or where exposure occurs because of Dealer error.
- 5.7. Once a Player has acted in turn, such action shall stand and shall be read together with Rules 5.8 to 5.11 governing out-of-turn and missed action for consistency.

- 5.8. Players may only act in turn. "Acting" includes both physical acts and verbal announcements of any action including "Call", "Bet", "Raise", "Fold", "Check", or "All In". A Player's action prior to their turn will be deemed "out of turn" and the following will apply.
- 5.9. All out of turn actions will be considered binding and will stand unless:
- 5.9.1. Subject to Rule 5.9.2, if, immediately following an "Out of Turn" Bet, an "In-Turn" Player changes the action by Betting or Raising, the "Out of Turn" Bettor shall have their full wager returned to them, and may only Call or Fold during the current Betting Round.
 - 5.9.2. If a Raise occurs later in the Betting sequence (i.e. after the Out of Turn Bet has been absorbed into the action by subsequent Player actions (e.g. Calling, Betting, Raising or Folding)), the Out of Turn Bettor's original Wager shall remain in the Pot, and all options (including the option to Call, Raise, Re-Raise or Fold) shall be reopened to the Out of Turn Bettor in respect of the new Raise.
- 5.10. If a Player folds out of turn, the fold will be binding.
- 5.11. At the discretion of the Supervisor, Players deemed to have intentionally acted out of turn to influence the play may be disallowed from playing, unless it was caused by a misdirection from the Dealer.
- 5.11.1. If a Player is disallowed from playing, any wagers made during the current betting round will be returned and wagers from previous betting rounds will be forfeited.
- 5.12. A Player who misses their turn to act will have their hand voided upon the occurrence of substantial action.
- 5.12.1. Pre-flop, if substantial action occurs, the hand of the Player who misses his turn to act will be deemed invalid.
 - 5.12.2. Post-flop, if substantial action occurs, the Player who has missed his turn to act is restricted to matching the actions of the subsequent Players who have acted. If all subsequent Players have checked, he may only check or fold. If any subsequent Player has bet or bet and raised, he must meet the wagered amount or fold. He is not permitted to raise.
- 5.13. If the Dealer Button has been placed incorrectly or failed to move at the end of the last round of play, and substantial action has occurred, then the hand will be completed, and the Dealer Button will continue from that position. The Button can never move backwards.
- 5.14. Players are responsible for verifying the amount of any Bet or Raise they are required to Call, and are not entitled to rely on any announcement made by the Dealer in respect of that amount.
- 5.15. Once substantial action has occurred, a hand shall proceed to completion except:
- 5.15.1. After substantial action, reconstruction of cards or wagers shall be permitted if the Supervisor determines that such reconstruction is possible and necessary to preserve the integrity of the game.
 - 5.15.2. Where reconstruction is not possible or appropriate, the Supervisor shall determine the outcome of the hand in the interest of fairness and game integrity.

- 5.15.3. A Player who moves to a seat closer to the Dealer Button than their previous position must post a Big Blind before participating in the next round of play. This rule applies regardless of whether the Player had already posted a Blind at their previous seat. The Dealer shall ensure the Big Blind is posted before the Player is dealt Hole Cards.
- 5.15.4. Where the Supervisor determines that a material Dealer error has occurred (including a clearly incorrect statement of the amount to call), the Supervisor may take corrective action in the interests of fairness and game integrity.

6. General Provisions

- 6.1. If an irregularity occurs that is not covered by these rules, the Gaming Shift Manager shall, at his reasonable discretion, decide how to resolve such matters.
- 6.2. Any positions or functions that are outlined in these rules may also be performed by any person acting in that position or holding a higher position.
- 6.3. The Dealer shall have the authority to make decisions necessary for the conduct of the game, provided such decisions are consistent with the provisions of these rules. In cases where discretion is permitted, the Dealer may act to maintain game integrity, flow, and fairness. Any disputes or escalations shall be referred to the Supervisor or Manager.
 - 6.3.1. In any situation not expressly covered by these rules, or where strict application of a rule would result in an unfair outcome, the Supervisor shall decide the matter in the best interest of the game, with fairness and integrity as the primary considerations without limiting Rules 6.1 and 6.3.
- 6.4. Players shall conduct themselves in a manner that does not disrupt the orderly conduct, integrity, or flow of the game.
 - 6.4.1. Any Player who, in the opinion of the Supervisor, engages in conduct detrimental to the integrity of the game may be subject to corrective action, including restriction from play.
 - 6.4.2. The use of electronic devices, speech, or any other conduct that may influence the outcome of a hand, delay the game, or cause confusion may be restricted or prohibited at the discretion of the Dealer or Supervisor.
